

错误名称	解决方法
表 5.10 音乐生成相关错误	
多模态输入不完整 (Incomplete multimodal input)	提示用户补充缺失的输入类型 (如文本、图像、音频至少选其一)，返回生成界面重新操作。Prompt the user to supplement the missing input type (e.g., at least one of text, image, or audio must be selected), and return to the generation interface to re - operate.
生成参数超出范围 (Generation parameters out of range)	高亮显示超出范围的参数 (如风格权重、节奏复杂度等)，提示合理取值范围，引导重新设置。Highlight the parameters that are out of range (such as style weight, rhythm complexity, etc.), prompt the reasonable value range, and guide to reset.
音乐生成超时 (Music generation timeout)	提示生成耗时过长，提供“取消重试”“继续等待”选项；若频繁超时，建议检查设备性能或联系技术支持。Prompt that the generation takes too long, provide options of "Cancel and Retry" and "Continue Waiting"; if frequent timeouts occur, suggest checking device performance or contacting technical support.

表 5.11 音乐鉴赏与推荐错误	
音乐特征解析失败 (Music feature analysis failure)	提示音乐解析异常，建议更换音乐文件或稍后重试；记录错误日志便于后台排查。Prompt that the music analysis is abnormal, suggest replacing the music file or retrying later; record the error log for background troubleshooting.
推荐算法无结果 (Recommendation algorithm no results)	显示“暂无匹配推荐”，引导用户调整推荐条件 (如扩大风格范围、刷新推荐)，或推荐热门通用内容。Display "No matching recommendations for now", guide the user to adjust the recommendation conditions (such as expanding the style range, refreshing the

	recommendation), or recommend popular general content.
表 5.12 社区交互错误	
作品发布内容违规 (Illegal content in work release)	拦截违规内容 (涉黄、侵权等), 提示违规类型并告知平台规则, 拒绝发布; 可申诉反馈。Intercept illegal content (pornographic, infringing, etc.), prompt the type of violation and inform the platform rules, and refuse to publish; appeal feedback is available.
评论 / 私信含敏感词 (Comments/private messages contain sensitive words)	屏蔽敏感内容, 提示用户修改后重新提交; 多次违规触发账号警告。Block sensitive content, prompt the user to modify and resubmit; multiple violations trigger an account warning.
关注 / 点赞操作失败 (Follow/like operation failure)	提示操作异常, 检查网络或重试; 若因权限问题 (如被对方拉黑), 明确告知权限限制。Prompt for abnormal operation, check the network or retry; if due to permission issues (such as being blocked by the other party), clearly inform the permission restriction.

表 5.13 用户管理与权限错误	
身份认证失效 (Identity authentication failure)	强制跳转登录界面, 提示 “登录过期 / 身份验证失败”, 重新完成认证。Force jump to the login interface, prompt "Login expired/Identity authentication failed", and complete the authentication again.
权限不足访问功能 (Insufficient permissions to)	提示 “当前账号无此功能权限”, 引导升级

access function)	会员 / 申请对应权限，或展示权限说明页面。Prompt "The current account has no permission for this function", guide to upgrade membership/apply for corresponding permissions, or display the permission description page.
个人信息修改格式错误 (Personal information modification format error)	(如昵称含特殊字符、年龄超范围、联系方式格式错等)，逐项高亮错误字段，提示正确格式要求，重新编辑。(e.g., nickname contains special characters, age is out of range, contact information format is wrong, etc.), highlight the error fields one by one, prompt the correct format requirements, and re - edit.
